

Witness Statement by Stephen Rooney

CLAIM No 5BN03502

Colin Bennett v Brighton & Hove City Council

My name is Stephen Rooney of 25c Sydenham Park, London, SE26 4EE.  
I was previously employed as Head of Communications at Sense, the national deafblind and rubella association (until October 2005). In that capacity I asked Colin Bennett to test the induction loop at the Royal Institution, where we were holding a public lecture. Collin did so in advance of the event and was helpful and constructive. He subsequently used the loop at the event in question. I have always found him to be honest and reliable.
