Dear Maria Seale

**During the hearig and site visit on Wednesday ,9
February 2005 in connection with the above
planning application and the proposed stopping-
up of St.James's Place, we all became aware of an
ugly brick pier that has been constructed in the
western flint wall to apparently latch the

**It seemed that you recognised this masonry as
not forming any part of the planning application in
question nor part of any other planning
application. You also seemed, like most of us, to
consider the pier to be entirely inappropriate.
Doubtless, you have already brought the situation
to the attention of your colleauges in both the
Conservation and the Enforcement teams for
action to be taken to obtain early reinstatement
of that beautiful flint wall.**

**For good order's sake, would you please confirm
to me that such action has been initiated and**

Could you also please indicate an expected time scale for the envisaged enforcement process and a date by which date we can all expect to see that flint wall returned to its former glory.

Yours sincerely
